2014

io non vivo infatti io volo sono sempre in alta quota leggero costantemente in orbita lanciato anche a piombo talvolta è la sensazione che ho quella di non avere i piedi per terra ma sono ricompensato da una buona dose di senso pratico in quello che faccio il mio non avere i piedi per terra non è l'aver la testa fra le nuvole tutt'altro sono concreto pratico forse cervellotico ma pratico e se ci penso sono anche un romantico idealista marco castoldi il libro di morgan

en enero de 1671 el pirata henry morgan capturó y saqueó la ciudad de panamá en un sorprendente hecho de armas cruzó el istmo de panamá y atacó la ciudad desde el este algo que los estrategas militares en la actualidad consideran imposible morgan tomó un botín importante de panamá pero le faltó el fabuloso altar dorado un artefacto invaluable que los curas habían pintado con creosota para evitar que lo descubrieran esta obra cuenta en detalle la invasión de morgan y su ira al descubrir lo que él y su banda de bucaneros habían dejado escapar prosigue relatando cómo un descendiente el mayor henry morgan un oficial de la armada británica que había pasado por panamá en su regreso de las guerra de las islas faulklands vuelve en 1985 para robarse el altar los sorprendentes detalles de sus preparativos para el robo la fundición del oro y su posterior venta se explican minuciosamente en este libro las descripciones del ataque de morgan en 1671 y de la ciudad de panamá en 1985 son precisas sin embargo el inmaculado altar dorado permanece hoy en la iglesia de san josé en la parte antigua de la ciudad no está lejos del lugar donde se erigía el infame cuartel general de las fuerzas de defensa del general manuel antonio noriega hasta 1989 fecha en que la invasión estadounidense destruyó el complejo y cambió la vida de panamá para siempre

this volume is the first comprehensive study of the influence of english pre raphaelitism on italian art and culture in the late nineteenth century analysis of the cultural relations between italy and britain has focused traditionally on the special place that italy had in the british imagination but the cultural and artistic exchanges between the two countries have been much misunderstood this book aims to correct this imbalance by placing pre rapahelitism in its european context it explores the nature of its influence on italy how it was transmitted and how it was manifested by focusing on the role of italian anglophiles the english communities in florence and rome the writings of gabriele d annunzio and a number of italian artists active in tuscan and rome the works of cellini ricci gioja de carolis and sartorio in particular fully demonstrate the impact of pre raphaelitism on the young italian school of painting which found in the english movement an ideal link with its glorious past on which it could build a new artistic identity these artists show that english pre raphaelitism was one of the most powerful single influences on fin de siecle italian culture

for much of the nineteenth century and all of the twentieth the per capita rate of suicide in cuba was the highest in latin america and among the highest in the world a condition made all the more extraordinary in light of cuba s historic ties to the catholic church in this richly illustrated social and cultural history of suicide in cuba louis a perez jr explores the way suicide passed from the unthinkable to the unremarkable in cuban society in a study that spans the experiences of enslaved africans and indentured chinese in the colony nationalists of the twentieth century republic and emigrants from cuba to florida following the 1959 revolution perez finds that the act of suicide was loaded with meanings that changed over time analyzing the social context of suicide he argues that in addition to confirming despair suicide sometimes served as a way to consecrate patriotism affirm personal agency or protest injustice the act was often seen by suicidal persons and their contemporaries as an entirely reasonable response to circumstances of affliction whether economic political or social bringing an important historical perspective to the study of suicide perez offers a valuable new understanding of the strategies with which vast numbers of people made their way through life if only to choose to end it to die in cuba ultimately tells as much about cubans lives culture and society as it does about their self inflicted deaths

what do clothing bathing or dining habits reveal about one s personal religious beliefs nothing of course unless such outward bodily concerns are perceived to hold some sort of spiritual significance such was the case in the multireligious world of medieval spain where the ways in which one dressed washed and fed the body were seen as potential indicators of religious affiliation true faith might be a matter of the soul but faith identity could also literally be worn on the sleeve or reinforced through performance of the most intimate functions of daily life the

significance of these practices changed over time in the eyes of christian warriors priests and common citizens who came to dominate all corners of the iberian peninsula by the end of the fifteenth century certain moorish fashions occasionally crossed over religious lines while visits to a local bathhouse and indulgence in a wide range of exotic foods were frequently enjoyed by muslims christians and jews alike yet at the end of the middle ages attitudes hardened with the fall of granada and the eventual forced baptism of all spain s remaining muslims any perceived retention of traditional moorish lifestyles might take on a sinister overtone of disloyalty and resistance distinctive clothing choices hygienic practices and culinary tastes could now lead to charges of secret allegiance to islam repressive legislation inquisitions and ultimately mass deportations followed to live like a moor traces the many shifts in christian perceptions of islam associated ways of life which took place across the centuries between early reconquista efforts of the eleventh century and the final expulsions of spain s converted yet poorly assimilated morisco population in the seventeenth using a wealth of social legal literary and religious documentation in this her last book olivia remie constable revealed the complexities and contradictions underlying a historically notorious transition from pluralism to intolerance
